

20-Hour Private Biology IGCSE

Price Starts: 18,000 Baht

Course Description

Master the Science of Life: Visualise Complex Systems and Secure Your A/A* with 1-on-1 Live Sessions

Conquer the massive IGCSE Biology syllabus with absolute confidence in just 20 hours! This premium, private online intensive course is meticulously structured to help students break down overwhelming biological concepts and intricate terminologies into highly manageable, structured knowledge.

Whether you are struggling with complex human anatomy, intricate genetic coding, or ecology, our specialist biology tutor, Kru Aueng, provides personalized, real-time guidance to elevate your exam performance.

Key Highlights:

Mind-Mapping & Systems Thinking: We replace endless rote-learning with structured mind maps. Learn to visualize biological processes and see the connection between different chapters seamlessly.

100% Tailored & Live Interactive Class: No pre-recorded tutorials. Experience a dynamic 1-on-1 live classroom that focuses purely on your personal academic gaps and school curriculum, allowing for instant feedback and clarification.

Mark Scheme Masterclass: IGCSE Biology demands precise vocabulary. We train students on how to identify command words in exam papers and supply the exact "Keywords" required by examiners to sweep maximum marks in both descriptive questions and practical theories.

Designed as a highly effective short-term catalyst, this course offers ultimate flexibility. Students can seamlessly extend their private learning package to maintain their momentum right up until the examination period.
