

20 Hour-Private Chemistry IGCSE

Price Starts: 18,000 Baht

Course Description

Master Elements & Equations: Conquer Mole Calculations and Elevate Your IGCSE Score with 1-on-1 Live Sessions

Transform your understanding of IGCSE Chemistry in just 20 hours! This premium, private online intensive course is strategically designed to help students master everything from abstract atomic structures to highly complex chemical equations. Whether you are struggling with Mole calculations, Organic Chemistry, or experimental analysis, our expert chemistry tutors, Kru Aueng and Kru Nay, provide tailored, real-time guidance to turn your weak spots into academic strengths.

Key Highlights:

- Conceptual & Visual Learning:** We replace blind memorization with logical understanding. Learn to read the periodic table, predict chemical behaviors, and visualize molecular interactions intuitively.
- 100% Customized Live Classroom:** No pre-recorded screens. Enjoy a fully interactive 1-on-1 live experience where the tutoring pace and curriculum adapt completely to your learning goals and school syllabus.
- Flawless Exam Execution:** Master the art of structured keywords required by the IGCSE marking scheme. Gain critical shortcut techniques for quantitative chemistry calculations and practical theory (Paper 6) to confidently sweep an A or A*.

Engineered as a powerful short-term catalyst, this course provides seamless flexibility. Students can easily extend their private roadmap to sustain top performance right up until exam day.

Included: Personalized Study Plan Past Paper Practice Mock Exams Expert Tutors
